2.14.2 Rates Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- (a) Unless otherwise specified, calls are timed in one minute increments. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.

- (c) Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.

2.14.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- a. Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated access line), the Company will apply the Rate Center of the Customer's main billing telephone number.
- b. The airline distance between any two Rate Centers is determined as follows:
  - 1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced NECA tariff.
  - 2) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
  - 3) Square each difference obtained in step (2) above.
  - 4) Add the square of the "V" difference and the square of the difference obtained in step (3) above.
  - 5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

- 2.15.2 No charges apply if a Call is not completed.
- 2.15.3 For billing purposes, all Calls are rounded up to the nearest minute and billed in increments of one minute. The minimum Call duration is one (1) minute for a connected Call.
- 2.15.4 Where applicable, charges will be rounded up to the nearest penny.
- 2.15.5 Usage begins when the called party picks up the receiver (*i.e.* when two-way communication is possible). A Call is terminated when the calling or called party hangs up. The Company utilizes software answer supervision, which permits up to sixty (60) seconds of ringing before the Call becomes billed usage. Where answer supervision is not available, any Call for which the duration exceeds sixty (60) seconds shall be presumed to have been answered and becomes billed usage.
- 2.15.6 The Company will not knowingly charge for Incomplete or unanswered Calls. Upon the Customer's request and proper verification, the Company shall promptly adjust or credit the Customer's account for charges or payments for any Incomplete or unanswered Call inadvertently billed due to the unavailability of Feature Group D or due to another carrier's failure to provide answer supervision. **3.15.1 IntraLATA Toll Presubscription**

IntraLATA Toll Presubscription is a procedure whereby a Customer designates to the Company the Carrier that the Customer wishes to use as its primary interexchange carrier (“PIC”) for intraLATA toll calls. Such calls are automatically designated to the intraLATA PIC, without the need to use carrier access codes or additional dialing to direct the Call to the designated Carrier. IntraLATA Toll Presubscription does not prevent a Customer who has presubscribed to an IntraLATA toll Carrier from using carrier access codes or additional dialing to direct Calls to an alternative intraLATA toll Carrier on a per Call basis. All new Customer’ initial requests for intraLATA toll service presubscription will be provided free of charge.

**3.15.2 Late Payment Fee**

A late payment fee of 1.5% will be applied to service charges not paid by the due date of the bill. The late payment fee will not be applied to previous late payment charges that have been assessed but remain unpaid, but will apply to the accumulated amount for which the Customer is in arrears.

**3.15.3 Toll Restriction**

Restricts the availability of toll service on a single line.

**3.15.4 Promotional Service Offerings**
