TARIFF FORMAT

- A. Page Numbering** - Page numbers appear in the upper right corner of the Page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between existing pages with whole numbers, a decimal is added. For example, a new page added between pages 34 and 35 would be page 34.1.
- B. Page Revision Numbering** - Revision numbers also appear in the upper right corner of the page. These numbers are used to determine the most current page version on file with the Commission. For example, 4th Revised Page 34 cancels the 3rd Revised Page 34. Consult the check Page for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A
 - 2.1.1.A.1
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I
 - 2.1.1.A.1.(a).I.(i)
 - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Page** - When a tariff is filed with the Commission, an updated check Page accompanies the tariff filing. The check Page lists the tariff pages, with a cross reference to the current revision number. When new Pages are added, the check Page is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this Page if these are the only changes made. The tariff user should refer to the latest check Page to find out if a particular page is the most current on file with the Commission.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.4 Responsibilities of the Customer

- 2.4.1 Customers may be required to enter into a written service order which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services and the terms and conditions in the tariffs of the Company. Customer also may be required to execute any other documents or provide information pertaining to past accounts for similar services as may be reasonably requested by the Company.
- 2.4.2 The Customer is responsible for placing any necessary orders, complying with tariff regulations and assuring that Users comply with tariff regulations. The Customer shall ensure compliance with any applicable laws, regulations, orders or other requirements of any governmental entity relating to services provided by the Company to the Customer or made available by the Customer to another User. The Customer also is responsible for the payment of charges for all Calls originated at the Customer's numbers which are not collect, third party, calling card, or credit card calls.
- 2.4.3 At the expiration of the initial term specified in each Service Order, or any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party. Any termination shall not relieve Customer of its obligation to pay any charges incurred under the service order and the tariffs of the Company prior to termination. The rights and obligations which by their nature extend beyond the termination of the service shall survive such termination.
- 2.4.4 The Customer is responsible for charges incurred for special construction and/or special facilities which the Customer requests and which are ordered by the Company on the Customer's behalf.
- 2.4.5 If required for the provisioning of the Company's services, the Customer must provide the Company, free of charge, with any necessary equipment space, supporting structure, conduit and electrical power.
- 2.4.6 The Customer is responsible for arranging access to its Premises at times mutually agreeable to the Company and the Customer when required for Company personnel to install, repair, maintain, program, inspect or remove equipment associated with the provision of the Company's services.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.4 Responsibilities of the Customer (Cont'd)

- 2.4.7 The Customer must pay the Company for replacement or repair of damage to the Company's equipment or facilities caused by negligent or improper use on the part of the Customer, Users, or others.
- 2.4.8 The Customer must indemnify the Company for the theft of any Company equipment or facilities installed at the Customer's Premises.
- 2.4.9 The Customer agrees to release, indemnify and hold harmless the Company against any and all loss, claims, demands, suits or other action or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss of or damage to any property, whether owned by the Customer or others. The Customer shall reimburse the Company for all costs, expenses and fees, including reasonable attorneys' fees, incurred by the Company in its defense against such actions.

2.5 Allowances for Interruptions in Service

2.5.1 General

- 2.5.1.A A service is interrupted when it becomes unusable to the User, *e.g.*, the User is unable to transmit or receive communications due to the failure of a component furnished by the Company under this tariff.
- 2.5.1.B An interruption period begins when the User reports a service, facility or circuit to be inoperative and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative.
- 2.5.1.C If the User reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, the service, facility or circuit is considered to be impaired but not interrupted. No credit allowances will be made for a service facility or circuit considered by the Company to be impaired.

2.5 Allowances for Interruptions in Service (Cont'd)

2.5.1 General (Cont'd)

2.5.1.D The Company will normally clear all trouble of an emergency nature at all hours, consistent with the needs of Customers and the personal safety of Company personnel.

2.5.1.E The Company normally will clear all other trouble calls not requiring unusual repair, such as cable failures, within 24 hours of the report received by the utility, excluding Sundays and holidays unless the Customer agrees to another arrangement.

2.5.2 Application of Credits for Interrupted Services

2.5.2.A At the Customer's request, a credit allowance will be given for a continuous interruption of service for a period of twenty-four (24) hours or more after being found or reported.

2.5.2.B Any such interruption will be measured from the time it is reported to or detected by the Company, whichever occurs first.

2.5.2.C In the event the User is affected by such interruption for a period of less than twenty-four (24) hours, no adjustment will be made. No adjustments will be earned by accumulating non-continuous periods of interruption.

2.5.3 Limitations on Allowances

2.5.3.A No credit allowance will be made for any interruption of service:

2.5.3.A.1 Due to the negligence of, or noncompliance with the provisions of this tariff by, any person or entity other than the Company, including but not limited to the Customer or other entities or carriers connected to the service of the Company;

2.6 Termination of Service

- 2.6.1 A Customer may terminate service, with or without cause, by giving the Company written notice, except where cause must be provided pursuant to the Customer's contract or Service Order. If a Customer orders services requiring special equipment and/or facilities dedicated to the Customer's use and then cancels the order before the service begins, a charge will be made to the Customer for the non-recoverable portions of expenditures or liabilities incurred expressly on behalf of the Customer by the Company.
- 2.6.2 Upon five (5) business days written notice to the Customer, the Company may discontinue service or cancel an application for service without incurring any liability for any of the following reasons:
- 2.6.2.A Failure of the Customer to pay a non-disputed delinquent account;
 - 2.6.2.B Failure of the Customer to make satisfactory arrangements to pay arrearages or meet the requirements of a payment agreement;
 - 2.6.2.C Failure of the Customer to permit the Company to have reasonable access to its equipment, facilities, service connections or other property;
 - 2.6.2.D Failure of the Customer to provide the Company with adequate assurances that an unauthorized use or practice will cease;
 - 2.6.2.E Customer violation of any regulation governing the service under this tariff, or a violation of any law, rule, or regulation of any government authority having jurisdiction over the service;
 - 2.6.2.F Company is prohibited from furnishing services by order of a court or other government authority having jurisdiction;
 - 2.6.2.G Customer fraud or material misrepresentation of identity for purpose of obtaining telephone service; or
 - 2.6.2.H Failure of the Customer to adhere to contractual obligations with the Company.

2.6 Termination of Service (Cont'd)

- 2.6.3 The Company may terminate service *without notice* to the Customer for any of the following occurrences:
- 2.6.3.A Customer's maintenance or operation of its equipment in such a manner as to adversely affect the Company's equipment or service to others;
 - 2.6.3.B Customer non-compliance with any provision of this tariff which results in threatening the safety of a person or the integrity of the service delivery system of the Company;
 - 2.6.3.C The existence of a condition on the Customer's premises determined by the Company to be hazardous;
 - 2.6.3.D Customer tampering with the Company's equipment or service;
 - 2.6.3.E Customer's unauthorized or illegal use of the Company's service or equipment.
- 2.6.4 The Customer is responsible for all charges incurred to the Calling Station regardless of which party terminates the service. The Customer shall reimburse the Company for all costs, expenses and fees (including reasonable attorneys' fees) incurred by the Company in collecting such charges.

2.7 Payment of Charges

- 2.7.1 The Customer is responsible for payment of all charges for service furnished by the Company to the Customer and Users, regardless of whether those services are used by the Customer itself or are resold to or shared with other persons.
- 2.7.2 Recurring monthly charges may be invoiced one month in advance. Invoicing cycles are approximately thirty (30) days in length, and payment is due upon receipt. Payment will be considered timely if paid within twenty (20) days of the billing date. After twenty (20) days, payment will be considered late.
- 2.7.3 The Company reserves the right to assess late payment charges for Customers whose account(s) carries principal owing from the prior billing period. Any charges not paid in full by the due date indicated on the billing statement may be subject to a late fee of 1.5% per month.
- 2.7.4 Customers must notify the Company either verbally or in writing of any disputed charges within thirty (30) days of the billing date, otherwise all charges on the invoice will be deemed accepted. All charges remain due and payable at the due date, although a Customer is not required to pay any disputed charges during the time period in which the Company conducts its investigation into the matter.
- 2.7.5 In the event of a dispute concerning a bill, Customers must pay a sum equal to the amount of the undisputed portion of the bill and proceed with the complaint procedures set forth in this tariff.

2.8 Deposits

The Company will not require deposits from Customers.

2.9 Advance Payments

The Company will not require advance payments from Customers.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.10 Contested Charges

All bills are presumed accurate, and shall be binding on the Customer unless objection is received by the Company within thirty (30) days of the billing date, either verbally or in writing. In the event that a billing dispute between the Customer and the Company for service furnished to the Customer cannot be settled with mutual satisfaction, the Customer may take the following course of action:

2.10.1 First, the Customer may request, and the Company will provide, an in-depth review of the disputed amount. (The undisputed portion and subsequent bills must be paid on a timely basis or the service may be subject to disconnection.)

2.10.2 Second, if there is still a disagreement about the disputed amount after investigation and review by the Company, the Customer may file an appropriate complaint with the Pennsylvania Public Utility Commission. The address of the Commission is:

Bureau of Consumer Services
Commonwealth Keystone Building
400 North Street
Harrisburg, Pennsylvania 17120
(717) 787-1740
(717) 787-6641 (fax)
(800) 782-1110.

2.11 Taxes

The Customer is responsible for the payment of Federal excise taxes, state and local sales and use taxes, fees and other exactions imposed on the Company or its services by governmental jurisdictions, other than taxes imposed generally on corporation. All such taxes, fees and charges shall be billed separately as separate items and are not included in the quoted rates for local exchange service.

2.12 Transfers and Assignments

Neither the Company nor the Customer may assign or transfer its rights or duties in connection with the Services and facilities provided by the Company without the written consent of the other party, except that the Company may assign its rights and duties (a) to any subsidiary, parent company or affiliate of the Company, (b) pursuant to any sale or transfer of substantially all the assets of the Company, or (c) pursuant to any financing, merger or reorganization of the Company.

2.13 Temporary Promotional Programs

The Company may establish temporary promotional programs under which it may waive or reduce non-recurring or recurring charges, to introduce present or potential Customers to a Service not previously received by the Customers. The specific terms of each promotional program shall be filed with the Commission within 30 days of its effective date.

2.14 Application of Rates

2.14.1 Introduction

The regulations set forth in this Section govern the application of rates for services contained in Section 4 of the tariffs of the Company.

2.14.2 Rates Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- a. Unless otherwise specified, calls are timed in one minute increments. All calls which are fractions of a measurement increment are rounded-up to the next whole unit.
- b. Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.14 Application of Rates (Cont'd)

2.14.2 Rates Based on Duration of Use (Cont'd)

- c. Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.

2.14.3 Rates Based Upon Distance

Where charges for a service are specified based upon distance, the following rules apply:

- a. Distance between two points is measured as airline distance between the Rate Centers of the originating and terminating telephone lines. The Rate Center is a set of geographic coordinates, as referenced in National Exchange Carrier Association, Inc. Tariff FCC No. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Where there is no telephone number associated with an access line on the Company's network (such as a dedicated access line), the Company will apply the Rate Center of the Customer's main billing telephone number.
- b. The airline distance between any two Rate Centers is determined as follows:
 - 1) Obtain the "V" (vertical) and "H" (horizontal) coordinates for each Rate Center from the above-referenced NECA tariff.
 - 2) Compute the difference between the "V" coordinates of the two rate centers; and the difference between the two "H" coordinates.
 - 3) Square each difference obtained in step (2) above.
 - 4) Add the square of the "V" difference and the square of the difference obtained in step (3) above.
 - 5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.

SECTION 2 - RULES AND REGULATIONS (Cont'd)

2.15 Timing of Calls

- 2.15.1 The Customer's monthly usage charges for the Company service are based upon the total number of minutes the Customer uses and the service options to which the Customer subscribes. Chargeable time begins at the time the called party answers (*i.e.* when two-way communications are possible), and ends when either party hangs up.
- 2.15.2 No charges apply if a Call is not completed.
- 2.15.3 For billing purposes, all Calls are rounded up to the nearest minute and billed in increments of one minute. The minimum Call duration is one (1) minute for a connected Call.
- 2.15.4 Where applicable, charges will be rounded up to the nearest penny.
- 2.15.5 Usage begins when the called party picks up the receiver (*i.e.* when two-way communication is possible). A Call is terminated when the calling or called party hangs up. The Company utilizes software answer supervision, which permits up to sixty (60) seconds of ringing before the Call becomes billed usage. Where answer supervision is not available, any Call for which the duration exceeds sixty (60) seconds shall be presumed to have been answered and becomes billed usage.
- 2.15.6 The Company will not knowingly charge for Incomplete or unanswered Calls. Upon the Customer's request and proper verification, the Company shall promptly adjust or credit the Customer's account for charges or payments for any Incomplete or unanswered Call inadvertently billed due to the unavailability of Feature Group D or due to another carrier's failure to provide answer supervision. Upon the Customer's request and proper verification, the Company also shall promptly adjust or credit the Customer's account for charges or payments for Calls placed to a wrong number.

3.2 Local Exchange Services

3.2.1 Standard Access Line

The Standard Residential or Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. The Standard Access Line applies to individual, multi-line and party lines. Standard Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. A multi-line subscriber is a Business customer with more than one Line provided by Company. Standard Access Lines enable the customer to:

- (a) place or receive calls to any station in the local calling area, as defined herein;
- (b) access enhanced 911 Emergency Service where available;
- (c) access the interexchange carrier selected by the Customer for interLATA, intraLATA, interstate or international calling;
- (d) access Operator Services;
- (e) access Directory Assistance;
- (f) place or receive calls to 800 numbers;
- (g) access Telecommunications Relay Service.

The Company's service will automatically block originating calls to other telephone companies' caller-paid information services (e.g., 900, 976) at no charge. Calls to those numbers and other numbers used for caller-paid information services will be unblocked on a per directory number basis only. Subsequent blocking of 900-type numbers will incur a charge listed in Section 4.

SECTION 3 - DESCRIPTION OF SERVICES (Cont'd)

3.2 Local Exchange Services (Cont'd)

3.2.2 Local Calling Services

3.2.2.A Local Residential Line Service

Local Residential Line Service provides Residential Customers with the ability to originate calls from a Company-provided access line to all other stations on the public switched telephone network bearing the designation of any central office exchanges, areas, and zones included in the Customer's local calling area. Service is provided on a flat, message, or measured use basis and may be provided in conjunction with other services and products included in this Section.

For message rate Customers, one message unit applies for each local message to dial tone lines in the local service portion of the Customer's exchange area. For measured rate Customers, calls will be billed on a per-minute basis for all calls within the local service portion of the Customer's exchange area.

3.2.2.B Local Business Line Service

Local Business Line Service provides a Business Customer with the ability to originate calls from Company-provided access lines to all other stations on the public switched telephone network bearing the designation of any central office exchanges, areas, and zones included in the Customer's local calling area. Service is provided on a flat, message measured use basis and may be provided in conjunction with other services and products included in this Section.

For message rate Customers, one message unit applies for each local message to dial tone lines in the local service portion of the Customer's exchange area. For measured rate Customers, calls will be billed on a per-minute basis for all calls within the local service portion of the Customer's exchange area.

3.2.2 Local Calling Services (Cont'd)

3.2.2.C Extended and Expanded Area Calling Services

Extended and Expanded Area Calling Service allows the Customer to make calls to specific NXX codes within designated exchanges outside the Customer's Local Calling area without paying intraLATA toll rates. The Customer is billed per call according to the duration of the call. Company will mirror all existing extended and expanded calling areas the ILEC currently has in place for facilities-based or resold services.

3.2.2.D Private Branch Exchange (PBX)

The Company's PBX Service uses PBX trunks to connect a customer PBX system or other similar equipment to the Company Central Office. Company treats these trunks similar to individual exchange lines and supports multi-line hunting over a group of trunks. This service may also be subject to an optional measured time rate treatment for calls to all Verizon New Jersey exchange areas within the same LATA which would otherwise be subject to the third mileage step (16-20) under the DDD residence rate schedule.

3.2.2.E Direct Inward Dialing Service

Direct Inward Dialing ("DID") Service is an optional feature provided in conjunction with Company-provided PBX Trunks. DID Service permits incoming calls from the exchange network to reach a specific station line without the assistance of an attendant through the use of a seven digit number. DID service transmits the dialed digits for all incoming calls allowing the Customer's PBX to route incoming calls directly to individual stations corresponding to each individual DID number. DID is furnished upon the condition that the customer contract for adequate facilities, e.g., dial tone lines, circuit packs or equivalent, etc, to permit the use of the service without injurious effect on general telephone service. Certain conditions, such as transmission limitations, may require the provision of additional switching equipment on the customer's premises in order to furnish DID service. The Company offers DID services to Customers in minimum blocks of twenty (20) telephone numbers.

3.3 ISDN Services

National Integrated Services Digital Network (ISDN) Direct is a telecommunications service that provides an integrated voice/data communications capability for the transmission of circuit switched voice and data and packet switched data signals on an incoming and outgoing basis utilizing Integrated Services Digital network architecture.

3.3.1 ISDN Primary Rate Interface (PRI)

Service provides the Business Customer with a direct digital connection, via switched access, to one or more public and/or private services. The service arranges the 64 Kbps channels of a DS1 into 23 B (Bearer) channels and 1 D (Delta) channel or 24 B channels under control of a D channel residing on a separate PRI facility. The B channels carry voice and data traffic at speeds up to 64 Kbps. The D channel carries the out-of-band signaling required to control its associated B channels.

3.3.2 Individual Line Business ISDN Basic Rate Interface (BRI)

Service is an optional service arrangement which can be used in conjunction with a customer's Individual Line Business service. It uses the ISDN architecture to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport. Service provides two bearer B-channels at 64 Kbps per second and a data D-channel at 16 Kbps per second. The bearer B-channels are designed for PCM voice, video conferencing, group 4 facsimile machines, etc. The data D-channel is for bringing in information about incoming calls and taking out information about outgoing calls.

3.4 Channel Services

3.4.1 General Description

Channel Service consists of two-point or multi-point communications service offerings usually dedicated solely to the use of a particular Customer. Channels are electrical path utilized for transmitting signals, voice, or data communications. Channels are derived in such a manner as the Company may elect and are suitable for the purposes for which they are furnished. While it is contemplated that the Customer may provide the terminal apparatus and wiring (exclusive of the equipment necessary to derive and terminate the channel which is provided by the Company), at the request of the Customer and provided that request is reasonable, termination equipment will be provided by the Company subject to the rates and regulations set forth herein.

Local channels connect two or more points in the same exchange area or connect the termination of an interexchange channel in a company office with a point in the exchange area served by that office.

3.4.1.A Metallic Local Channel Miscellaneous Remote

Metallic Local Channel Intrastate Remote are remote local channels used for burglar alarm.

3.9 Custom Calling Features

- 3.9.1 Anonymous Call Rejection: Allows a called party to block the display of their number and name on outgoing Calls on a per-Call basis for a fee. Anonymous Call Rejection will be offered to all Caller ID subscribers free of charge.
- 3.9.2 Automatic Busy Redial: Permits the Customer to redial automatically the last number dialed. If the called line is busy, a 30-minute queuing process begins. The customer is then given an indication that the network will attempt to set up the call when the called line is idle.
- 3.9.3 Automatic Call Return/*69: Enables a Customer to automatically return the last incoming Call. To return the call, the Customer dials a feature Code and the number is dialed automatically. If the called line is busy, a 30-minute queuing process begins. The Customer is then given an indication that the network will attempt to set up the Call when the called line is idle.
- 3.9.4 Busy Number Redial: This feature automatically redials another parties phone number after the Customer's first attempt to connect to that number resulted in a busy signal. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive other calls while the feature is activated.
- 3.9.5 Call Answering Business: This service provides a call answering feature whereby a live assistant answers the call when the called party is unavailable.
- 3.9.6 Call Gate: Blocks unauthorized outgoing calls.
- 3.9.7 Caller ID: Allows the number of the calling party to be passed from the telephone company to your telephone between the first and second ring signaling an incoming telephone call.
- 3.9.8 Caller ID Intercept: An optional enhancement feature to Caller ID With Name. Provides Customers with Caller ID With Name with informed choices about accepting or rejecting unidentified calls by requiring identification of calling parties to verbally identify themselves as a condition of call connection.
- 3.9.9 Caller ID with Name: This feature provides the originating telephone number and also the name associated with the line. The information is displayed on a Customer provided display device attached to the Customer's telephone line.

- 3.9.18 Cancel Call Waiting: Allows the User, on a per-Call basis, to cancel the Call Waiting function by dialing *70 before making a call.
- 3.9.19 Class Caller ID/Unidentified Caller Block: A service that block calls from callers who have prevented their name and telephone number from being displayed on a Caller ID display device. A recording instructs callers how to unblock their call.
- 3.9.20 Delayed Call Forwarding: Standard Call Forwarding with a delaying action feature.
- 3.9.21 Distinctive Ringing: This feature allows a Customer to have up to three separate telephone numbers which consist of the main telephone number and two additional telephone numbers, associated with one exchange access line. Each telephone number will have a distinctive ring on incoming calls to allow the Customer to identify the incoming call line. If the Customer also subscribes to Call Waiting, a Call Waiting tone is provided for each additional telephone number. All telephone lines must be served by the same Central Office.
- 3.9.22 Last Number Redial/*69: Allows the Customer to return a call to the last incoming call whether the Customer answered the call or not.
- 3.9.23 Make Busy: Enables an end user to make busy one or more incoming lines through the operation of a button at the end user's location.
- 3.9.24 Make Busy - Trunk: Enables an end user to make busy one or more incoming lines, as well as the entire trunk, through the operation of a button at the end user's location.

- 3.9.32 Select Forward: This service allows a customer to select a maximum of up six telephone numbers for forwarding. This list can only be created from and for telephone numbers located in appropriately equipped offices.
- 3.9.33 Sounddialing: A feature that allows for the end user to program speed dial and then activate it by a verbal command.
- 3.9.34 Speed Calling (8 or 30): Permits the Customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than complete telephone numbers. The feature is available as an eight code list or a thirty code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the Customer dials an activating code, receives a second dial tone and dials either a one- or two-digit code (for the eight code and thirty code lists, respectively) plus the telephone number. Speed calling thirty is also available with an additional line.
- 3.9.35 Three Way Calling: Permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.

3.9.40 Caller ID Blocking

- A. Per Call Caller ID Blocking (“Per-Call Blocking”): Per-Call Blocking will be automatically available to all customers served by the Company, free of charge and on an unlimited-use basis. This blocking option will allow callers to block the passage of their telephone numbers and/or names on outgoing calls by dialing a special code, prior to making each call. When the caller activates this feature, the Caller ID subscriber’s display unit will indicate that the incoming calls has been blocked.

Where applicable, all Public and Semi-Public telephones in the Company serving area will be equipped with the Per-Call Blocking option. Instructions on how to use the blocking will be provided at each public telephone location.

- B. Per-Line Caller ID Blocking (“Per-Line Blocking”): Per-Line Blocking will allow callers to automatically prevent the display of their telephone numbers and/or names on a permanent basis unless the service is deactivated, on a per call basis, by dialing a special code. If the caller deactivates the Per-Line Blocking before placing a call, Per-Line Blocking will automatically resume after the unblocked call is completed.

Per-Line Blocking will be available to all customers, free of charge, in the Company’s serving area and can only be added or removed from a customer’s line by placing a service order with the Company. Initial requests for Per-Line Blocking will be provided at no charge. Subsequent requests for Per-Line Blocking for the same customer and telephone number at the same address may be charged the applicable non-recurring charge(s). However, this non-recurring charge will be waived for customers of the Company who are victims of domestic violence, the staffs of domestic violence programs and agencies, and emergency services personnel while performing their jobs.

3.11.6 Telecommunications Relay Service (TRS)

The Pennsylvania Telecommunications Relay Service (TRS) is a relay telecommunications service for the deaf, hearing and/or speech disabled population of the Commonwealth. The service permits telephone communications between individual with hearing and/or speech disabilities who must use a Text Telephone and individuals with normal hearing and speech as provided in the tariff filed by AT & T Communications of Pennsylvania, Inc.

In Addition to the charges provided in this tariff and the Company's other intrastate tariffs, a surcharge will apply to all residence and business access lines served by this Company. This surcharge applies regardless of whether or not the access line uses the Pennsylvania Telecommunications Relay Service.

This surcharge serves as the funding vehicle for the operation of the Pennsylvania Telecommunications Relay Service, and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the Pennsylvania Relay Service Surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

The following surcharge rates apply to all bills:

Monthly Rate

Per business access line	\$0.10
Per residence line	\$0.07

Local calls will be charged at the applicable rate specified in this tariff.

3.12 Promotional Service Offerings

From time to time, the Company may offer services or waive or vary service rates for promotional, market research or other similar business purposes.

3.13 IntraLATA Toll Presubscription

(A) IntraLATA Presubscription is a procedure whereby a customer designates to the Telephone Company the IntraLATA Toll Provider (ITP) which the customer wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. IntraLATA presubscription does not prevent a customer, who has presubscribed to an intraLATA toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per call basis.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred intraLATA toll provider, only one access code of that carrier may be incorporated into the switching system of the Telephone Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s).

An ITP must use Feature Group D (FGD) Switched Access Service to qualify as an intraLATA toll provider unless prior arrangements have been made with or by the Telephone Company. IntraLATA toll providers must submit an Access Service Request (ASR) prior to the intraLATA toll presubscription conversion date or prior to the date on which the carrier proposes to begin participating intraLATA toll presubscription, unless prior arrangements have been made with the Telephone Company.

Selection of an intraLATA toll provider by an end user is subject to the terms and conditions following.

3.13 IntraLATA Toll Presubscription (Cont'd)

- (B) At the option of the ITP, the nonrecurring charge for a change in intraLATA toll presubscription, as provided herein, may be billed to the ITP, instead of the end user. This may involve charges resulting from end-user initial free choice PIC changes, as specified in C.1 following.

This option for the ITP to be billed for the PIC change charge instead of the end user is not available for orders placed directly via the Company's Business Offices.

(C) Presubscription Charge Application

- (1) Existing end users may exercise an initial free presubscription choice, either by contacting the Telephone Company or by contacting the ITP directly. The initial free choice must be made within 90 days following implementation of intraLATA toll presubscription. The charge for the initial free choice change will be billed to the new ITP at the discretion of the Telephone Company. End users' choices which constitute exercising the free initial choice are:

- Designating an ITP as their primary carrier thereby requiring no access code to access that ITP's service. Other carriers are accessed by dialing 101XXXX or other required codes.
- Choosing no carrier as a primary carrier thus requiring 101XXX code dialing to access all ITPs. This choice can be made by directly contacting the Telephone Company.

Following an existing end user's initial free selection, any subsequent selection made during the first 90 days after presubscription or any change made more than 90 days after presubscription is implemented is subject to a non-recurring charge as set forth herein.

(C) Presubscription Charge Application (Cont'd)

- (2) New end users who subscribe to service after the presubscription implementation date (including an existing customer who orders an additional line) will be asked to select a primary ITP when they place an order for Telephone Company Exchange Service. If a customer cannot decide upon an intraLATA toll carrier at the time, the Telephone Company may extend a 30-day period following completion of the service request to make an intraLATA PIC choice without charge. In the interim, the customer will be assigned a “No-PIC” and will have to dial an access code to make intraLATA toll calls.

Initial free selections available to new end users are:

- Designate an ITP as their primary carrier thereby requiring no access code to access that ITP’s service. Other carriers are accessed by dialing 101XXX or other required codes.
- Choose no carrier as a primary carrier thus requiring 101XXX code dialing to access all ITPs. This choice can be made by directly contacting the Telephone Company. In addition, new end users that do not select a preferred carrier will be assigned a “No-PIC.”

Following a new end user’s initial free selection, any subsequent selection made following implementation of intraLATA toll presubscription is subject to a non-recurring charge as set forth herein.

- (3) If an ITP elects to discontinue Feature Group D service after implementation of intraLATA toll presubscription option, the ITP is obligated to contact, in writing, all end users who have selected the canceling ITP as their preferred intraLATA toll provider. The ITP must inform the end users that it is canceling its Feature Group D service, request that the end user select a new ITP, and state that the canceling ITP will pay the PIC change charge as provided herein. The ITP must provide written notification to the Telephone Company that this activity has taken place.

Following the ITP’s discontinuance of service, the Telephone Company will bill the canceling ITP the change charge for each end user that is currently designated to the ITP at the time of discontinuance.

(C) Presubscription Charge Application (Cont'd)

- (4) An unauthorized PIC change is a change in the presubscribed intralATA toll provider that the user denies authorizing. PIC disputes for end users are resolved through an investigative process.

If an unauthorized change in intraLATA presubscription occurs, the ITP making the unauthorized change will be assessed a charge for unauthorized change in presubscription as provided in G.2 following. In addition, the ITP will be assessed the applicable charge for returning the end user to their preferred intraLATA toll provider.

If an unauthorized change in intraLATA toll presubscription and interLATA presubscription occurs at the same time, on the same Business/Residence line, and the presubscribed ITP is the same carrier for intraLATA and interLATA, presubscription change charges as provided herein and the Telephone Company's corresponding F.C.C. Access Tariff apply. In addition, the ITP will be assessed the applicable charges for returning the end user to their preferred intraLATA toll provider as herein and in the Telephone Company's corresponding F.C.C. Tariff.

(D) Equal Access Recovery Charge

The Equal Access Recovery Charge is a charge to recover the costs that the Company has directly incurred in connection with the implementation of intraLATA toll presubscription. The Equal Access Recovery Charge is billed to intraLATA toll providers.

3.13 IntraLATA Toll Presubscription (Cont'd)

(E) End User Charge Discrepancy

(1) When a discrepancy is determined regarding an end user's designation of a preferred intraLATA toll carrier, the following applies depending upon the situation described:

- A signed letter of authorization takes precedence over any order other than subsequent, direct customer contact with the Telephone Company.
- When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date/time determines customer choice.
- If an end user denies requesting a change in intraLATA toll presubscription as submitted by an ITP, and the ITP is unable to produce a letter of authorization, signed by the end user, the ITP will be assessed all applicable change charges. The non-recurring change charges are provided herein. The ITP will also be assessed the intraLATA toll presubscription change charge as specified herein, which was previously billed to the end user.

(2) Verification of Orders for Telemarketing

Neither the ITP or the Telephone Company shall submit a PIC change order generated by outbound telemarketing unless and until the order has first been confirmed in accordance with the F.C.C.'s current anti-slamming practices and procedures.

(F) PIC Switchback Option-Business/Residence

PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when an end user denies requesting a change in primary carrier submitted by the ITP. The ITP participating in PIC Switchback will be billed the PIC Switchback Charge, and the presubscription change charge, as specified herein, to switch the end user to the end user's previous carrier.

When the Telephone Company is contacted by an end user who denies requesting a change in ITP primary carrier, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous ITP at no charge. If this service is made available by the Telephone Company, ITPs may subscribe to or cancel PIC Switchback Service on 30 days' notice to the Telephone Company by submitting a written request. A letter of authorization from the ITP will not be requested or accepted at a later date in the event of dispute of the charges assessed under the PIC Switchback option.

This option in no way relieves the ITP of the F.C.C. requirements for:

- Verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or
- Instituting steps to obtain verification of orders submitted to the Telephone Company.

In addition, the end user has the option of initiating a complaint to the F.C.C. or the Public Utility Commission concerning unauthorized changes in carrier.

4.1.10.J	<u>Residential Unlimited Calling Program</u>			

This service is for use by residential customers who select 011 Communications or International Plus service. Customers who subscribe to this voice service must select and designate NOS Communications, Inc. as its Local Exchange Carrier (LEC), and NOS Communications, Inc. d.b.a. 011 Communications or International Plus as its Interexchange Carrier (IXC) for interstate, international and intrastate calling, and as its intraLATA toll provider for intraLATA toll calling. Concurrent with enrollment in this plan, customers must also enroll in any companion unlimited traffic plans for all domestic traffic.

A monthly recurring charge will apply to this service as outlined below. This charge is identical to and shall not be in addition to the monthly recurring charge as outlined in any tariffs or service guides as applicable to companion Federal Service or to companion State Residential Unlimited Calling Program Services.

Monthly charge:	\$69.56	\$69.56	(I)
-----------------	---------	---------	-----

The following is included in the monthly recurring charge: Unlimited domestic state-to-state (Interstate) long distance, unlimited instate (Intrastate) long distance, and unlimited local toll calls, directly dialed from home; Basic line charges and features, and voicemail.

The following are not included in the monthly recurring charge: toll-free calling, international calling, calling card calls, cellular telephone platform calls, remote call forwarding, off premise extensions, WIRE-PRO, PBX, ISDN, Foreign Exchange Numbers, Local Number Portability, non-recurring charges, operator assistance, directory assistance, directory listing options, taxes, surcharges, per use charges and custom calling features. Customers will be charged at the rates contained within the Mobile Progressive Calling plan for international calls, or at the appropriate basic rate for all services not included within the monthly recurring charge.

COMPETITIVE LOCAL EXCHANGE SERVICES

SECTION 7 - PROMOTIONAL, SPECIAL SERVICES AND TELECOMPETITIVE SERVICE OFFERINGS

7.1 General Description

From time to time, Company shall tariff rates or select tariffed rates, the purpose of and/or design for which is to retain Company's competitive position by offering rates which are necessitated by competing offers received by or available to existing or potential customers, which, if not matched or bettered, would result in the loss of an existing or potential customer and/or in the reduction of traffic volume of the customer. Company either shall require customer confirmation of the competitive offer in writing or shall confirm the availability of a more favorable competitive rate from published tariffs, marketing materials, or other public sources to establish a customer's right to obtain a Promotional, Special Service and/or Telecompetitive Service offering.

SECTION 7 - PROMOTIONAL, SPECIAL SERVICES AND TELECOMPETITIVE SERVICE OFFERINGS (Cont'd)

7.2 Customer Loyalty Plan

Customers who qualify as either a “save” or a “winback” and who meet the eligibility requirements set forth herein will receive a credit on either their 4, 6th or 9th invoice as selected by Customer upon service initiation and as provided following.

7.2.1 For each three, five or eight invoices (for credit months 4, 6 and 9, respectively) of consecutive uninterrupted service, a credit shall be calculated equal to the lower of either (i) the average of the Customer’s monthly charges excluding fees, taxes, surcharges, assessments, and similar charges (“eligible charges”), for the preceding consecutive eight-month period; or (ii) a credit which equals the eligible charges on the invoice in which the credit is applied.

7.2.2 To be eligible for the 4th, 6th or 9th invoice free bonus, each Customer must:

7.2.2.A have initiated service;

7.2.2.B have no record of nonpayment in any of the preceding consecutive twelve-month period of service;

7.2.2.C have received eight consecutive and uninterrupted invoices over the preceding eight-month period;

7.2.2.D have selected the 9th invoice free bonus incentive prior to the first day in the period of service covered by Customer’s ninth invoice; and

7.2.2.E pay all charges rendered in Customer’s ninth invoice in excess of the amount of the applicable credit as calculated preceding.

7.2.3 Beginning July 15, 2006, customers receiving a credit under the “Every Fourth Invoice Free” Customer Loyalty Plan, will have the “Every Fourth Invoice Free” Customer Loyalty Plan removed from their accounts, and will have the “Every Ninth Invoice Free” Customer Loyalty Plan added to their accounts in substitution. For purposes of calculating when a customer will receive a credit under the newly substituted “Every Ninth Invoice Free” Customer Loyalty Plan, the Company will begin the calculation with the customer’s first invoice following the last credit invoice under the “Every Fourth Invoice Free” Customer Loyalty Plan.
